SPECIAL FEATURES

1. OPEN ROLLER

Fully exposed rolled up fabric referred to as an "Open Roller", is typically used for soffit mounting or when overhead protection is provided just above the unit.

Open Roller

2. PROTECTIVE HOOD

A 14 1/4" deep protective hood is used for wall mounting when no overhead protection is present. The hood adds 1" to the overall unit length.

Protective Hood

3. ROOF MOUNT

When additional clearance is required, we recommend the protective hood in combination with our strong and sturdy 12' tall roof mount brackets.
