

RAINIER PINNACLE

RETRACTABLE SHADING SYSTEMS

Wall Mounted Optional Center Beam & Traditional Cornice

UNIQUELY DESIGNED

CREATE & CUSTOMIZE YOUR NEW OUTDOOR ROOM

Every Rainier Shading product is custom ordered, carefully produced and professionally installed by independent dealers to fit your unique needs. The Rainier Pinnacle will add lasting value to your home and improve your outdoor living. The Pinnacle is engineered for up to 60 lbs/sqft. snow load and up to 130mph wind load. The Pinnacle can consist of a single module (up to 12' wide x up to 20' projection) or of multiple modules for larger area coverage.

ADD AN ELEGANT TOUCH

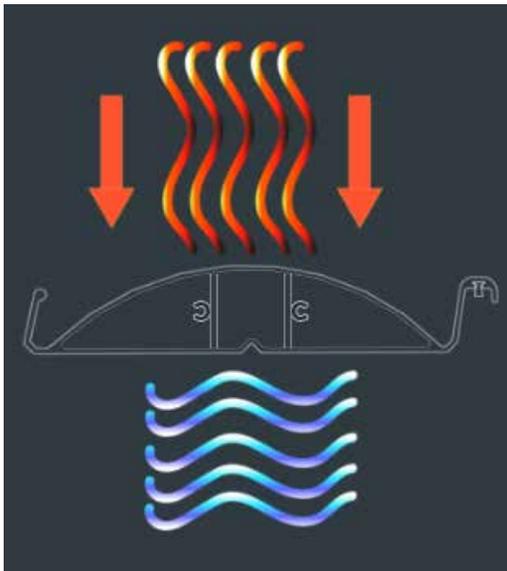

The Rainier Pinnacle can be ordered with clean simple frame lines or can be upgraded with two optional aluminum cornice treatments: Traditional Style or Contemporary Style.

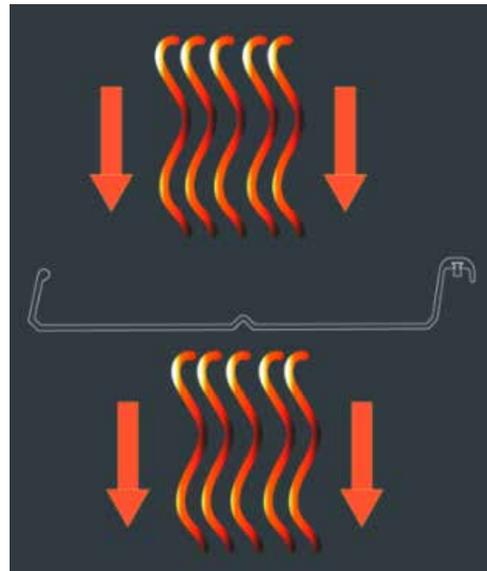

TO MEET YOUR NEEDS

DUAL WALLED LOUVERS FOR IMPROVED CLIMATE CONTROL

Our louvers are created with a large hollow chamber vs. other systems, which use single flat sheet styles. This design offers greater engineered strength and temperature control, creating a more comfortable space.

OUR LOUVERS

OTHER COMPANIES

PRODUCT DESIGN WITH FLEXIBILITY IN MIND

Your Pinnacle louvered roof system is produced and installed with your unique needs in mind. We offer free standing designs and wall mounted structures to accommodate virtually any protection needs. Rainier offers a host of dealer installed options from retractable screens to lights, heaters, fans and more!

PRODUCT FEATURES

STRENGTH AND DURABILITY

Non-corrosive, 6063 T-6 aluminum construction for strength, durability, and longevity.

GALVANIZED & POWDER COATED FASTENERS

With a baked ceramic finish – rated for coastal exposure to maintain the units' structural integrity.

Gutter System

Drainage Post

GUTTERS AND DOWNSPOUTS

Built in, high flow gutters and downspouts – allowing the rain to exit quickly, even during heavy down pours.

POWDER COATED FINISH

AMA 2605 rated powder coated finish. This superior grade architectural finish will maintain its appearance for years to come.

ELECTRONIC OPTIONS

Optional Somfy brand controller and electronic sensors.

PRODUCT WARRANTY*

Lifetime warranty on frame, motor & electronics.

*Please review warranty for complete details

CORNICE OPTIONS

Two optional powder coated aluminum cornice moldings to choose from for a more finished look of your outdoor room.

Without Cornice

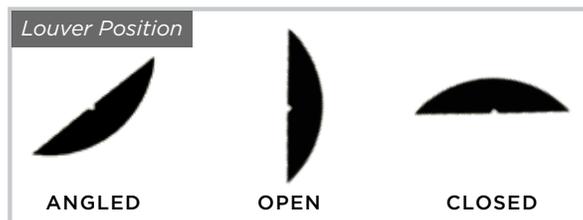

Contemporary Cornice

Traditional Cornice

CONTROL YOUR ENVIRONMENT

As a fully functional pergola, the Pinnacle allows you to open and close the top louvers effortlessly with a touch of a button. Angle the louvers to block direct sunlight while creating a cooling updraft. Open the louvers fully to expose you and your guests to warmth and sunshine or close the louvers fully and allow the built in gutters and drain spots to protect you from the rain.

EUROPEAN ELEGANCE AT HOME

WHY THE RAINIER PINNACLE?

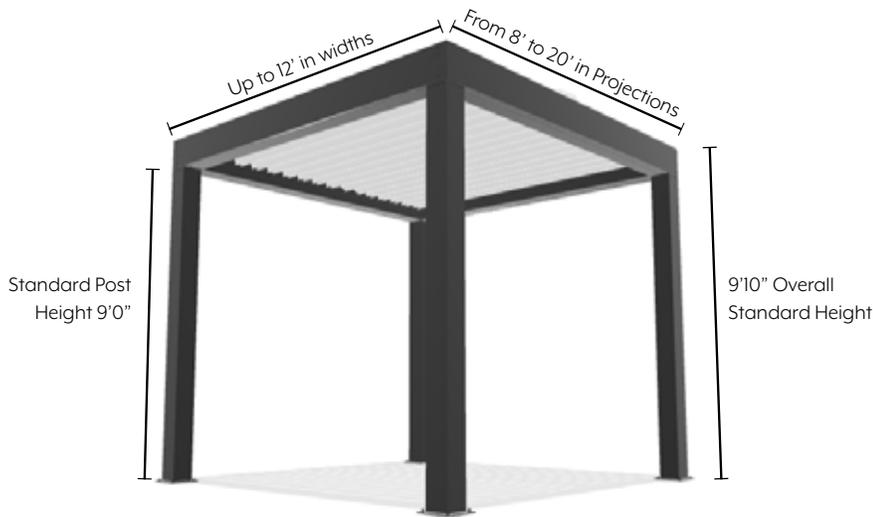

Add a new room to your outdoor space. The Rainier Pinnacle is a revolutionary outdoor roofing solution that combines style, functionality, and durability. Our innovative design allows you to easily control the amount of sunlight and shade in your outdoor space, while also providing protection from the elements. No matter the weather, our Rainier Pinnacle will enhance your outdoor living experience and add value to your property. Upgrade your patio or deck with our Louvered Roof and enjoy multi season comfort in style.

The Rainier Pinnacle is a versatile and innovative outdoor shading solution. With its adjustable louvers, our roof system provides customizable shade, ventilation, and protection from the elements. Perfect for both residential and commercial spaces, the Rainier Pinnacle offers a modern and sleek aesthetic design. The Rainier Pinnacle offers two cornice molding options for a finished and refined appearance.

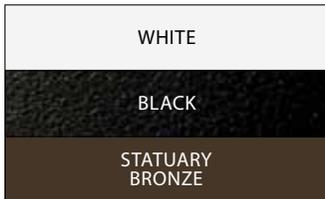

Wall Mounted, Optional Center Beam & Contemporary Cornice

PRODUCT OPTIONS

MADE TO YOUR SPECIFICATIONS

The Rainier Pinnacle is custom made to fit your unique space. Single units can range from 8' to 12' wide with projections up to 20'. Multiple units can be connected to create larger coverage as needed. Your Pinnacle can be free standing (self-supporting) or can be supported by your home's exterior wall. Customize post heights: the standard post is 9'0" tall, with an overall height of 9'10" but posts can be increased in height up to 11'0" in 1" increments.

FRAME COLOR OPTIONS

3 super durable powder coated colors in a matte finish to choose from. Select the complete unit in a single color or have the frame and the louvers, also available in stone, in a contrasting color combination.

SCREEN OPTIONS

Side retention retractable screens can be added for privacy or sun control.

SENSOR OPTIONS

By upgrading to a Somfy controller, you can add a Rain sensor or a Wind sensor to maximize functionality and extend the life of your Rainier Pinnacle exterior room.

ACCESSORIES

Your dealer can provide other options to enhance your outdoor room such as ceiling fans, heaters, lighting and more.
